Chinese Medicine emphasizes treating each person as an individual, with a personalized evaluation and treatment. We hope that you are feeling your best, but if you are suffering with senior's health issues come in to see us and discover how Chinese Medicine can help you. We treat our patients with a variety of modalities with great results: Tuina (Chinese bodywork), Acupuncture, Chinese Herbal Medicine, Cupping, and Moxibustion.

We are ICAOM, an accredited acupuncture school and clinic located in Honolulu's China Town district. We perform individualized evaluations for all of our patients and apply a diagnostic perspective on the findings. Chinese medicine has successfully treated many disorders with great results from 5,000 years of accumulated experience.
